PROFILE

Backend Developer with 2+ years of experience progressing from internship to contract and full-time roles. Builds and maintains backend services for higher-education platforms using Node.js, JavaScript, GraphQL, REST APIs, MongoDB, and Docker. Experienced in MongoDB aggregation pipelines, background jobs, service integrations, database operations, and troubleshooting across development, staging, pre-production, and production environments.

WORK EXPERIENCE

Zettabyte Pte Ltd <i>Backend Developer, Full-time</i>	Sleman, Yogyakarta, Indonesia <i>Apr 2025 - Present</i>
- Develop and maintain Node.js and GraphQL backend services and MongoDB data pipelines for ERP and supporting applications used in academic and administrative workflows. - Design reusable MongoDB aggregation pipelines for configurable tables, filtering, sorting, pagination, data processing, and export workflows. - Integrate email, notification, Excel export, PDF generation, and document-processing services, including Redis and BullMQ background jobs. - Diagnose database connectivity, CORS, query-performance, memory, build, background-job, and environment-configuration issues across multiple environments. - Analyze requirements and existing application flows, coordinate changes across repositories, assess regression risks, collaborate across teams, and validate final changes.	
<i>Backend Developer, Contract</i>	<i>Nov 2024 - Mar 2025</i>
- Implemented backend features and bug fixes using Node.js, JavaScript, GraphQL, and MongoDB; maintained APIs, database queries, and business logic supporting academic workflows. - Investigated application and integration issues, collaborated with frontend and QA teams, and progressed to a full-time Backend Developer role.	
<i>Backend Developer Intern</i>	<i>Jul 2024 - Oct 2024</i>
Supported backend features, API implementation, database operations, testing, and bug fixing using JavaScript, Node.js, and MongoDB; progressed to a contract role.	

SELECTED PROJECTS

Configurable Data Tables and Export Workflows	ZettaByte Pte Ltd
Contributed to GraphQL queries and reusable MongoDB aggregation pipelines for dynamic fields, filtering, sorting, pagination, and Excel export while reducing duplicated retrieval logic.	
Notification And Document Service Integrations	ZettaByte Pte Ltd
Contributed to email, notification, Excel export, PDF generation, and document-processing integrations, including background jobs and cross-service troubleshooting.	

EDUCATION

Universitas Teknologi Yogyakarta <i>Bachelor of Informatics, GPA: 3.82/4.00</i>	Sleman, Yogyakarta <i>Sep 2018 - May 2023</i>
Pacmann Academy <i>AI/ML Engineering Professional Program</i>	Remote <i>Jun 2023 - Jul 2024</i>

ADDITIONAL

Technical Skills: Node.js, JavaScript, GraphQL, REST APIs, MongoDB, Mongoose, MongoDB Aggregation Framework, Redis, BullMQ, Docker, Jenkins, Linux, PM2, Nginx, AWS, Git, CI/CD

Engineering Skills: Requirements Analysis, API Integration, Debugging, Code Review, Background Jobs, Technical Documentation, Performance Optimization

AI-Assisted Development: Codex, Claude Code, ChatGPT

Certifications: SQL and Data Wrangling - Pacmann Academy (2023); Microsoft Certified: Azure AI Fundamentals - Microsoft (2023)

Languages: Indonesian - Native or bilingual proficiency; English - Professional working proficiency
